

I'm not robot!

Season 3 of Destiny 2 has brought a myriad of changes to the game, but one notable change is the introduction of Masterworks for Exotics. A select number of Exotic weapons have received the ability to unlock extra abilities through items called Catalysts. There is a specific Catalyst for each Exotic that has this potential, and each require a different solution to unlock its full power. The DARCI sniper rifle's catalyst states "Found by defeating the enemies of Humanity, wherever they may lurk." this can be seen in the weapon's menu by highlighting the area where the catalyst would slot into. The catalyst can be obtained by killing any enemies in PvE, and will drop randomly. After obtaining it however, you must kill enemies with precision shots coming from DARCI, but this can be done in PvE or PvP. After gaining the necessary number of precision kills with DARCI it will be a Masterworks weapon and provide even greater stability, which is extremely important for a sniper rifle. That's how to get the DARCI catalyst and what it does in Destiny 2 Warmind. For more tips, tricks, and guides, be sure to check out our wiki. Where to find all Exotic Catalysts and how to complete the Masterwork in Destiny 2. Unlocking Exotic Catalysts in Destiny 2 is what gets most players out of bed every day. Each Catalyst, when completed, upgrades an Exotic to a Masterwork version, increasing its power through some stat boost or by introducing a new perk, and causing it to generate Orbs of Light on multi-kills. Players who want to increase the potency of their favorite Exotic weapons will want to begin tracking down and completing the many Exotic Catalysts in Destiny 2. Last updated on May 24, 2022. All Exotic Catalysts Masterwork

Upgrades Exotic Catalysts can drop from numerous locations in Destiny 2, though each Catalyst has its own specific drop location. Catalysts can drop from general content like Patrols, Strikes, Nightfalls, and Heroic Adventures, from multiplayer content like Quickplay Crucible and Competitive Crucible, as well as from end-game activities like the many raids. The best option is to find one you want, and then farm the activity until the Catalyst drops. Note: With the release of The Witch Queen, several Exotic Catalyst sources will be removed. If you do not unlock them before The Witch Queen, you will not be able to unlock them until Bungie changes their drop source. Exotic Catalysts in Destiny 2 boost an attribute of an Exotic weapon and sometimes add a special effect. Use the table below to learn what Exotic weapons have Catalysts, what the Catalyst does to the weapon, where to find the Catalyst, and how to upgrade it to Masterwork.
